Subject: Validated LWG Stormwater Data - 1st Batch

Valerie,

Please notify EPA and NOAA of the following. The data from the Round 3 stormwater investigation will be posted in 3 batches, rather than at the conclusion of the entire field program. At this time, the first batch is available in flat file format. A site characterization and risk assessment (SCRA) database will be developed at the end of the program. In the interim, data will be posted in batches, after validation. The first batch of data posted today was generated from the first 3 stormwater composite events on March 26, 2007, April 9, 2007 and April 18, 2007. If you have any questions about the stormwater data, please contact Laura Jones (Integral) or Carl Stivers (Anchor).

This communication is made under the framework of the LWG Participation Agreement and in the parties' common interests in meeting LWG member obligations under the Administrative Order on Consent and in anticipation of litigation concerning liability for the Portland Harbor Superfund site. This communication is intended and believed by the parties to be part of an ongoing and joint effort to develop and maintain a common legal strategy and contains strategies, work product and legal advice within the "common interest" extension of the attorney-client privilege and the work product doctrine. This communication may include attorney-client communications. With respect to communications by private LWG members to public members, those communications are with the expectation that they will be kept confidential by the public entities. The information is intended to be for the use of the individual or entity named above. If you are not the intended recipient, please be aware that any disclosure, copying, distribution or use of the contents of this information is prohibited. If you have received this electronic transmission in error, please notify us by telephone at (360) 705-3534, or by electronic mail at sbrowning@integral-corp.com
